

Tool: Socrative

1. Usability & Accessibility

- *Question 1:* Is the tool user-friendly, with an intuitive design that can be easily understood by both educators and students?
 - Socrative is designed with educators in mind, offering a user-friendly interface. Teachers can easily create quizzes, polls, and exit tickets, while students can join a room with a simple code. The design is intuitive for both educators and students.
- *Question 2:* Does the tool offer accessibility features to accommodate students with diverse needs?
 - Socrative's design is easy to use, but it may not have specific features tailored for those with certain disabilities. Although, since it's easy to use it can be used alongside screen readers and other assistive technologies.

2. Learning Objectives

- *Question 1:* Does the tool align with the desired learning outcomes or educational objectives of the course/lesson?
 - The content of the quizzes and polls in Socrative is up to the educator, so it can be made to align with the desired learning outcomes or educational objectives of the course/lesson.
- *Question 2:* Does the tool support various teaching strategies, such as inquiry-based learning, collaborative learning, or problem-based learning?
 - Socrative supports various teaching strategies. It can be used for inquiry-based learning, collaborative learning, and problem-based learning.

3. Interactivity & Engagement

- *Question 1:* Does the tool offer interactive features that promote participation from students?
 - Socrative offers interactive quizzes and polls that promote participation from students. The real-time feedback and live results feature can increase student engagement.
- *Question 2:* Does the tool provide opportunities for feedback, allowing students to reflect on and improve their understanding?
 - Teachers can provide immediate feedback on student responses, allowing students to reflect on and improve their understanding. The exit tickets also serve as a reflection tool.

4. Data Privacy & Security

- *Question 1:* Does the tool have data protection policies, ensuring student data is kept private and secure?
 - Socrative has data protection policies in place, ensuring that student data is kept private and secure. They comply with educational standards and regulations.
- *Question 2:* Does the tool require minimal personal information from students, and is there an option for anonymity?

While students need to enter a room code to participate, they don't necessarily need to provide personal information. Teachers have the option to keep student participation anonymous.

5. Integration & Compatibility

- *Question 1:* Can the tool easily integrate with other commonly used educational platforms,?
 - Socrative can be used alongside other educational platforms, but direct integration might be limited.
- *Question 2:* Is the tool compatible across various devices and operating systems?

Socrative works across various devices, including smartphones, tablets, and computers. It's web-based, so it's compatible with various operating systems as long as there's a web browser.
